Technical Skills

Languages: Python, Java
Frameworks/Libraries: FastAPI, Flask, Scikit-learn, TensorFlow, Pandas, NumPy, OpenCV
Databases: MySQL, SQLite
Tools: Git, VS Code, Power BI
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Machine Learning: CNNs, LLMs

Projects

CropScanAI – AI Crop Disease Detection

- Built a CNN model using **TensorFlow** achieving ~88–90% accuracy for disease detection
- Developed a Flask-based web application for image upload and real-time predictions
- Applied image preprocessing using OpenCV and NumPy for model input optimization
- Tech used:** Python, Flask, TensorFlow, OpenCV, NumPy

InboxAI – LLM-powered Email Assistant

- Developed backend APIs using **FastAPI** integrating Gmail & Google Calendar for email retrieval and scheduling
- Implemented automated email processing including summarization, categorization, and task handling using LLMs
- Built a pipeline for parsing attachments (PDF, OCR, text extraction)
- Managed session data using SQLite for consistent and context-aware responses
- Tech used:** Python, FastAPI, LLMs, Groq (LLaMA), Gmail API, Google Calendar API, SQLite

Education

IPS Academy, Indore B. Tech in Artificial Intelligence and Machine Learning CGPA: 9.11 (Till 5th Semester)	Sept 2023 – Present
Indore Public School Higher Secondary Education (12th, PCM) – 70.6%	June 2022
Indore Public School Secondary Education (10th) – 90.0%	June 2020

Achievements

- Academic Topper:** 1st position in 2nd year (CGPA 9.09).
- Sports:** 1st Place – Table Tennis (Department Level).
